

Changing the Colour of Text

The CPM-100 Label Printing System can print multi-coloured labels as well as single colour.

To change the colour of text, click on the text then click on the relevant colour on the colour toolbar

Changing the Colour of Graphics

To change the colour of graphics, double click on the graphic, go to the **Status** tab and un-tick **Separate Colors During Print**. Click on **OK** then select the relevant colour on the colour toolbar.
