

## Changing the Colour of Text & Graphics

The CPM-100/H & CPM-200 Sign & Label Printing Systems can print multi-coloured labels as well as single colour.

To change the colour of text, click on the text then click on the relevant colour on the colour toolbar.

## Changing the Colour of Graphics

To change the colour of graphics, double click on the graphic, go to the Style tab and un-tick Separate Colours During Print. You can then select the relevant colour from the colour bar.
